Our Infinity Sun Airbrush Tanning

Will give you a beautiful natural-looking tan. ***Our Airbrush Tan*** is performed by one of our technicians and is customized for you. Tell us what you want and we Airbrush you accordingly. Lighter face, darker legs, or contoured stomach –you choose your tone! Our Airbrush System is the perfect answer for those who want a beautiful custom tan today–best for Weddings, Parties, Proms, Vacations and Special Events– or just for a great looking tan! **First time Airbrush customers receive 20% off their first package! No coupons necessary!**

We utilize the ***INFINITY SUN AIRBRUSH SYSTEM & Eliminator III Airbrush Tanning Over Spray Overspray Remover***. The Infinity Sun Spray Gun is specifically designed & engineered to atomize two different solutions precisely into a fine mist. The Spray Gun also provides computerized multiple levels of spray (light, med, and dark) unlike any other Spray Guns. ***Eliminator III Airbrush Tanning Over Spray Overspray Remover*** keep the environment safe by removing fume and overspray.

The ***INFINITY BRONZE TANNING SOLUTION*** - An anti-aging sunless tanner made with antioxidants and pure botanicals, leaving the skin radiant with a natural-looking, golden brown glow. Containing a cosmetic bronzer derived from walnut extracts, our bronzing solution delivers immediate results. This is a New Generation Solution which has a pink undertone providing a more natural looking and darker tan than has ever been available by other inferior and older Airbrush Systems and solutions.

Optional ***pre spray INFINITY NORMALIZE/HYDRATE TREATMENT-*** A fine blend of

exotic aloe which assists in hydrating porous areas of the body. This product enables the sunless tanning solution to penetrate uniformly into the skin, resulting in a longer-lasting, more even sunless tan. This normalizes the PH in your skin and provides a super hydration, just before the Airbrush.

How Does Airbrush Tanning Solution work? The FDA approved active ingredient DHA, is derived from raw sugar cane and reacts with the proteins in the outermost layer of your skin to produce a golden brown color. DHA has been used safely over the years in numerous sunless tanning products. We use the Infinity Sun Premium quality product manufactured with the most advanced method available. Our solution allows for more natural color and longer-lasting results than similarly advertised products. Although you see immediate Color, It takes 6-8 hours for the reaction to complete and your tan to appear.

How Long Does The Airbrush Tan last? Your tan will last between 7 and 10 days, depending on how you care for your skin. The day after you get your tan, we recommend moisturizing daily to extend the life of your tan. You'll want to avoid exfoliating, taking long hot baths or showers or your tan will fade more quickly. Additionally you want to avoid extended time in chlorinated pools and hot tubs, as they will bleach your tan very quickly.

How Do I Prepare For My Airbrush Tanning Session? For the best results, shower and exfoliate the skin beforehand. Insure your skin is free of all lotions, oils, gels or any other products (including foundation if you want your face tanned) that may create a barrier. Wear loose dark clothing and sandals for at least 2 hours after your tan, or it may develop very unevenly. Wait for 6 -8 hours before bathing (overnight is best), avoid perspiring to allow the solution ample time to react with the proteins in your skin. When you wake up you will have a beautiful tan!

What Do I Wear For My Airbrush Tanning Session? If you are a woman, you may wear your own undergarments or swimwear (we recommend older/darker undergarments), or opt for no tan lines at all... If you are a man, we require briefs or bathing suits

How Long Does The Airbrushing Process Take? It takes about 12 minutes to airbrush your entire body. You'll dry off using warm and cool air for an additional 8-10 minutes. The entire process takes less than 30 minutes.

Products for Pre- and Post care

Pre-Care-INFINITY EXFOLIANT: This gentle, skin-renewing formula polishes and exfoliates with natural, non-abrasive pineapple fruit enzyme. By removing non-vital skin cells at the end of their lifecycle, our exfoliant smoothes the surface of the skin, leaving only young and healthy skin cells to exhibit a flawless, long-lasting sunless tan. Available in 8 fl.oz. tubes.

Post care-INFINITY EXTEND SHIMMER: A super-hydrating lotion containing our highest quality antioxidants, botanicals, DHA and mica particulates. This product is designed to keep the skin soft and silky-looking and to extend the tan for an additional 2-3 days. Available in 8 fl.oz. tubes.

Post care-INFINITY SUNLESS TANNING AEROSOL: An anti-aging, self-tanning aerosol spray enriched with anti-oxidants, vitamins A and E, and seven skin-essential oils. Infinity Sun aerosol is alcohol-free and features a refreshing vanilla aroma-therapeutic fragrance. This spray system is developed with a multi-directional applicator for quick and seamless applications and is perfect for use on the face neck and décolleté areas or for touching up fading areas in between Infinity Sun tanning sessions. Available in 3 fl.oz. cans.
